

COLOR OF THE MONTH

Army Green

Ten-hut! This earthy tone is ready to serve on the front lines of your home. It's strong on its own (as the U.S. Army uniform proves), but it can also join forces with rust and camel for an elevated desertlike palette, or with peach or dusty pink for a light and sweet vibe. When mixed with creams, gold, and woven materials, as in this kitchen by interior designer Linda Hayslett, it becomes a calming neutral that's anything but boring. —H.B.
